

Lap Band Success

Lap Band Success

Connie tells prospective Lap Band Patients to be sure and do their research on the procedure and not be afraid to ask the professionals questions on how this operation works.

"My husband and I were skeptical at first, but we did our research and came here and spoke to the doctors," Connie stated. "The information on the Web site convinced me to do the surgery and I recommend it to those who are thinking of it."

Becoming one of the countless Lap Band Patients who are happy with their results to date, Connie said her ultimate weight loss goal is to lose 100 pounds.
